

Env. Science Chapter 1

“Science and the Environment”

Name _____

Test is scheduled for: _____

Things to know:

21 Multiple Choice, 14 Fill-in-the-Blank

Vocabulary to Know:

Agricultural Revolution

Biodiversity

Developed Countries

Developing Countries

Ecological Footprint

Ecology

Environmental Science

Hunter-Gatherer

Industrial Revolution

Nonrenewable Resources

Renewable Resources

Sustainability

Concepts to Understand:

- Environment through time:
 - Describe Hunter-Gatherers, Agricultural Revolution, Industrial Revolution
 - Positive and Negative contributions of each
- Spaceship Earth, Closed System
- Biodegradable and Non-Biodegradable Pollutants
 - Examples of Each
 - How can something biodegradable be a pollutant?
- Loss of Biodiversity-
 - What is it?
 - Why is it a problem?
- How are Environmental Science and Ecology different?
- Developed and Developing Countries
 - Differences between them
 - Examples of each
- Law of Supply and Demand
- “Tragedy of the Commons”
 - Describe it
 - What groups are in conflict?
- Sustainable World
